

Andro Delos Reyes

Education Bachelor of Science Civil Engineering Degree, Philippines

Affiliations **Certified Engineering Technologist - CET, OACETT**
Member Examination Committee (OACETT 1998-2000)
CSA Certified Concrete Field and Laboratory Technician, 2007
CCIL Certified Type "C" Aggregate Technician, 2007
CCIL Certified Type "B" Hot Mix Asphalt Technician, 2010

Experience **Golder Associates Ltd. Whitby, Ontario**
1998 to Date Senior Pavement & Materials Technologist
Asphalt Cement (Superpave Laboratory) Supervisor
Field supervision(QA/QC),Upgrade Bridgetown Port, Barbados, Alaska Hwy Project(QA).Responsible for the testing of performance graded asphalt cement (PGAC), asphalt emulsions, asphalt cutbacks, bridge deck waterproofing material, SMA, concrete admixtures and miscellaneous bituminous materials.

Golder Associates Whitby, Ontario
1996 to 1998 Asphalt Lab Supervisor
Responsible for laboratory testing of hot mix asphalt (HMA) from various MTO projects and other contracts. Construction inspector Hwy 401/404 MTO paving projects. Concrete, soil and aggregate testing, concrete condition surveys and profilograph testing.

Ashwarren Engineering Services Mississauga, Ontario
1993 to 1995 Senior Materials Testing Technologist
Involved in the mix design of hot mix asphalt, process control and compliance testing. In charge of quality control, analysis/testing of cutbacks and emulsions. Paving inspector hot-in-place recycling. MTO projects include Hwy 403 at Mavis Road, Hwy 101 at Timmins, Hwy 86, Kingston, Hwy 26, Owen Sound and Hwy 400 at Rutherford Road. Research and development of pavement materials which include shingles, rubber, microsurfacing formulation and slurry seals.

Angel Lazaro & Associates Philippines
1987 to 1991 Highway Engineer
World Bank funded road projects. Directly responsible in the implementation of contract specifications regarding road alignment, earthworks and paving items, drainage configuration, bridge locations, route location surveys and quantity take-off of as-built items. Participated in the preparation of project proposals and detailed engineering.

A. Kassardjian Ltd., General Contractor Ghana
1986 to 1987 Project Engineer
Directly supervised the construction of a World Bank funded infrastructure project consisting of roads, water mains, sewage and drainage structures. Team effort in the setting up and operation of aggregate production quarry. Extensive co-ordination with World Bank consultants and local government in the implementation of this project.

Ghana Highway Authority Ghana
1978 to 1986 Public Works Department
Resident Engineer, highway infrastructure development program. Supervised contractor implemented road projects in several parts of the country. Participated in the design and approval of roads, all surveys related to construction, drainage configuration and bridge alignment, pile driving, soil investigation and laboratory tests on construction materials.
